

SYED MASTANI

Software Engineer — Java Full Stack Developer

✉ syedmastani235912@gmail.com • ☎ +91 9652006754 • 🌐 Portfolio • 🐙 GitHub • 🔗 LinkedIn • 💻 LeetCode

Professional Summary

Computer Science undergraduate with expertise in Java Full Stack Development, Data Structures & Algorithms, React.js, Flutter, SQL, and MySQL. Passionate about building scalable software solutions, solving real-world problems, and continuously improving technical skills through hands-on projects and competitive programming.

Education

Bachelor of Technology (Computer Science & Engineering) **2023 – 2027**
Narasaraopet Engineering College, Andhra Pradesh **CGPA: 8.91/10**

Technical Skills

Languages: Java, Python, C, SQL

Frameworks & Technologies: HTML5, CSS3, JavaScript, React.js, JDBC, Servlets, JSP, Flutter, Dart, MySQL

Developer Tools: Git, GitHub, VS Code, Eclipse IDE, Android Studio **Core CS:** DSA, OOP, DBMS, OS, CN

Projects

ERP Management System *Java — JDBC — JSP — Servlets — MySQL*

- Built a role-based ERP platform to manage students, faculty, attendance, examinations, and academic records.
- Implemented authentication, CRUD operations, and MySQL integration using Java Full Stack technologies.

Doctor Appointment Application *Flutter — Dart — Android Studio*

- Developed a mobile application for booking doctor appointments with patient registration and appointment scheduling.
- Designed an intuitive Flutter-based interface to provide a smooth user experience.

Medicinal Plant Identification *Python — Machine Learning — Image Processing*

- Developed an image-based system to identify medicinal plants and provide information about their medicinal uses.
- Applied machine learning techniques for plant classification with an easy-to-use interface.

IntelliHMI – AI-Powered Smart HMI *ABB Accelerator Hackathon*

- Developed an AI-powered industrial dashboard with role-based interfaces and intelligent alarm prioritization.
- Implemented machine health monitoring, AI recommendations, and KPI dashboards for smarter decision-making.

Internship Experience

Java Full Stack Development Intern *DataValley Technologies*

- Completed practical training in Java Full Stack Development using Java, JDBC, Servlets, JSP, React.js, SQL, and MySQL.
- Developed database-driven web applications following industry best practices.

Achievements

- Participated in the **ABB Accelerator Hackathon** and developed the **IntelliHMI** AI-powered industrial dashboard.
- Regularly solve Data Structures & Algorithms problems on **LeetCode**.

Certifications

Java Full Stack Development (DataValley) • Oracle Java Foundations • Artificial Intelligence Fundamentals • Infosys Springboard – Introduction to Python • Infosys Springboard – Advanced Python
